

What can I do for you?

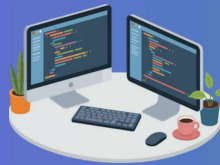

Web Development (Frontend & Backend)

I build responsive and user-friendly websites using technologies like HTML, CSS, JavaScript, React, and backend frameworks such as Django or Node.js.

Automation & AI Integration

I implement automation and AI-assisted features to streamline workflows and enhance system efficiency.

System & Application Development

I design and develop systems tailored to business needs, including POS systems, dashboards, and automation tools to improve workflows.

Graphic Design & Branding

I design clean and modern visuals including social media graphics, posters, UI layouts, and branding materials aligned with your identity.

Technical Support & Troubleshooting

I provide reliable tech support for software, systems, and hardware issues to ensure smooth and efficient operation.

Video Editing & Short-Form Content

I edit engaging videos such as reels, ads, and promotional content optimized for clarity, storytelling, and social media platforms.

AutoCAD Drafting & Technical Design

I create precise 2D/3D drawings, layouts, and technical plans using AutoCAD for engineering, architectural, or system design purposes.

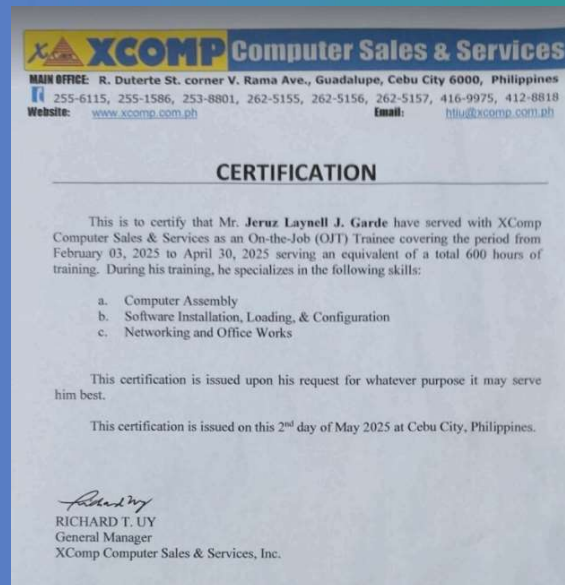

Database Management

I design and manage databases (MySQL, PostgreSQL), ensuring secure, organized, and optimized data handling.

What Makes Me A Great Fit?

- ✓ Professional Computer Engineer with strong technical foundation in software and systems development
- ✓ Full-time Programming Instructor with the ability to explain complex concepts clearly and deliver high-quality solutions
- ✓ Proven experience developing POS systems for private companies and government institutions
- ✓ Skilled in building real-world, scalable applications tailored to business needs
- ✓ Versatile in both technical and creative work (development, design, and multimedia)

The screenshot shows the SAP Fiori 'Manage My Sales' application. The interface features a teal header bar with the title 'Manage My Sales' and a search icon. Below the header is a navigation bar with icons for 'Home', 'Sales', 'Customers', 'Products', 'Orders', 'Invoices', 'Reports', 'Settings', and 'Help'. The main content area is a large, empty grey rectangle.

4. Medical Records Management System

The screenshot shows the MedRecords360 login and registration interface. The login window has fields for Username and Password, with a 'Show Password' checkbox and a 'LOGIN' button. The registration window has fields for Create Username, Create Password, and a 'SEND' button. The main interface shows a list of medical staff records with columns for Staff ID, First Name, Middle Name, Last Name, and a 'Remove' button. A sidebar on the left contains icons for Register, Records, Update, and Sign Out.

Medical Staff Records

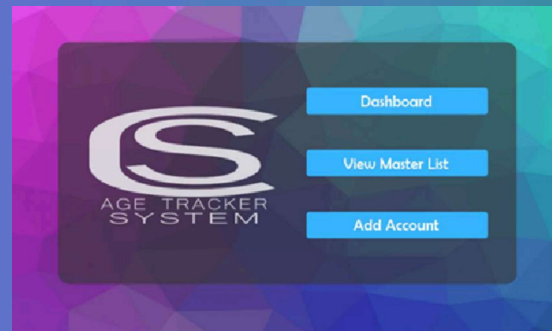

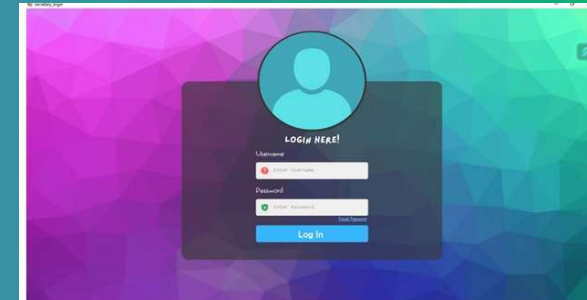

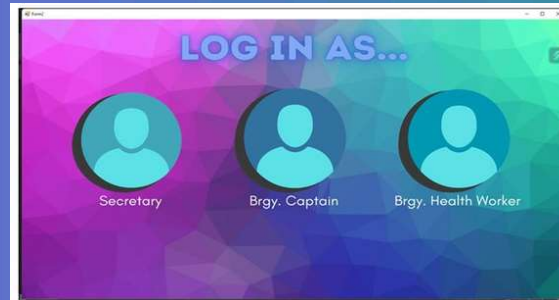

Staff ID	First Name	Middle Name	Last Name
001-01	David	David	David
001-02	John	John	John
001-03	John	John	John
001-04	John	John	John
001-05	John	John	John
001-06	John	John	John
001-07	John	John	John
001-08	John	John	John
001-09	John	John	John
001-10	John	John	John
001-11	John	John	John
001-12	John	John	John

The screenshot shows the registration form and a summary of list history. The registration form has fields for First Name, Middle Name, Last Name, Date of Birth, Gender, Civil Status, Nationality, Religion, Father's Name, Mother's Name, Guardian's Name, and Instructor's Name. It also has sections for Family Health History, Past Illness History, Present Health History, and Immunization History. The summary of list history table shows a list of categories and counts.

Summary of List History

Category	Count
Family Health History	10
Past Illness History	10
Present Health History	10
Immunization History	10
